COMMUNITY DEVELOPMENT - DEVELOPMENT SERVICES PLANNING				
	Park System Development Charge (SDC)*			
	Single Family Unit	\$4,811.00	\$4,048.34	1/1/2010 7/1/2011
	Multi-family Unit	\$3,867.00	\$3,254.20	1/1/2010 7/1/2011
	Spaces in a manufactured home park	\$3,814.00	\$3,209.17	1/1/2010 7/1/2011
	Commercial/industrial (per employee)	\$327.00	\$274.81	1/1/2010 7/1/2011
*See Appendix for methodology used to calculate the charges.				

The Park System Development Charge (Park SDC) is a City of Tigard charge that is assessed on new development to support the acquisition and development of parks, greenways, and paved trails, all of which are used by residents of Tigard and by those who work here. The Park SDC is a one-time fee charged to new development to help pay a portion of the costs associated with building additional parks and trails to meet the needs created by both residential and commercial/industrial growth. The SDC revenues can only be used on capacity-increasing capital improvements and cannot be used to repair existing park facilities.

Park SDCs are assessed on new residential development on a per-unit basis and against commercial and industrial development on a per-employee basis.

The amount of the charge for each land use category is adjusted each year, effective July 1st, in relation to two indices, one reflecting changes in development/construction costs and one reflecting changes in land acquisition costs.

For information about Park SDCs regarding a specific project contact the City's Permits/Projects Coordinator at 503-718-2426.

For more detailed information on calculating Park SDCs see City of Tigard Resolution No. 04-97 and the accompanying report, "Parks and Recreation System Development Charges Methodology Update" by Don Ganer & Associates, Inc., November 10, 2004.

Department	Revenue Source	Fee or Charge	Effective Date
	Park SDC Annual Adjustment		4/10/2001

Parks SDC fees shall be adjusted annually on July 1st of each year beginning in 2011. The new fee will be determined by multiplying the existing fees by the average of two indices, one reflecting changes in development/construction costs and one reflecting changes in land acquisition costs. The average of these two indices is a reasonable approach because the Parks SDC fee is roughly split 50% between land acquisition land development components.

The index for the Land Acquisition component will be the base cost for residential tract land in Tigard, as determined by the Washington County Appraiser. The average cost for residential tract land was selected because it is readily identified and is the lowest priced of the buildable lands in Tigard. Changes in this base cost can be calculated in terms of a percentage increase, to create the level of change to the original index, and projected to the overall acquisition cost. In accordance with Measure 5, the Washington County Appraiser's office will determine appraised values on July 1 of each year.

The index for the Land Development component of the Parks SDC will be the Construction Cost Index for the City of Seattle as published in the December issue of the Engineering News Record (ENR). The Seattle cost index will be used because the city is the geographically closest to Tigard of twenty metropolitan areas for which the ENR maintains cost data. This index is adjusted monthly, quarterly, and annually. The annual index for each year will be selected beginning with the index for December 2002.

Park SDC Annual Adjustment (cont.)

Calculation Definitions:

SDC (2000) = Current SDC fee

L (2000) = Average cost of residential tract land 2000

L (2001) = Average cost of residential tract land 2001

L (2xxx) = Average cost of residential tract land 2xxx

C (2000) = Construction cost index of 2000

C (2001) = Construction cost index of 2001

C (2xxx) = Construction cost index of 2xxx

LCI = Land Cost Index: change from the current year from previous year

CCI = Construction Cost Index: change from the current year from previous year

ACI = Average cost index change of LCI + CCI

**City of Tigard
Fees and Charges Schedule**

EXHIBIT A

Department	Revenue Source	Fee or Charge	Effective Date
	<u>Formula:</u>		
	L (2001) / L (2000)	= LCI	
and	C (2001) / C (2000)	= CCI	
therefore	LCI + CCI / 2	= ACI	
then	SDC (2001) X ACI	= SDC (2002)	

Each year subsequent to 2002, the costs shall be revised using the current year and previous year's data. Notwithstanding the foregoing, all calculations shall be carried out to the thousandth place. A final product ending in .49 or less shall be rounded down to the nearest dollar, .50 or more up to the next dollar. Community Development staff will perform the adjustment calculation and prepare the resolution each year.

COMMUNITY DEVELOPMENT - DEVELOPMENT SERVICES ENGINEERING				
	Traffic Impact Fee *			
	Trip Rate			
	Residential Use	\$382.00	\$404.00 /average weekday trip	7/1/ 2010 2011
	Business & Commercial Use	\$96.00	\$102.00 /average weekday trip	7/1/ 2010 2011
	Office Use	\$350.00	\$371.00 /average weekday trip	7/1/ 2010 2011
	Industrial Use	\$367.00	\$389.00 /average weekday trip	7/1/ 2010 2011
	Institutional Use	\$158.00	\$168.00 /average weekday trip	7/1/ 2010 2011
	Transit Rate	\$27.00	\$30.00 /average daily trip	7/1/ 2010 2011

The Traffic Impact Fee (TIF) is a Washington County charge, approved by the voters in November, 1990, that is administered and collected by the City of Tigard. It went into effect in 1991. On July 1, 2009 it was replaced with the Transportation Development Tax (TDT) regarding new development projects. All projects that received Land Use Approval and submitted building permit applications prior to July 1, 2009 remain under TIF as do most non-residential projects that received Land Use Approval prior to July 1, 2009 even if building permit applications were submitted after that date. Residential, change-of-use, and minor addition projects for which building permit applications are submitted on or after July 1, 2009 are subject to TDT.

TIF charges are assessed on new development to help provide funds for the increased capacity transportation improvements needed to accommodate the additional vehicle traffic and demand for transit facilities generated by that development. TIF provides funds for these capacity improvements to county and city arterials, certain collectors, and certain state and transit facilities as listed in the County's Base Report list of projects. TIF is categorized as an Improvement Fee: revenue must be dedicated to capital improvements that expand capacity and may not be used for maintenance, repair, or other non-capital improvements.

TIF is assessed on new development on the basis of the number of trips that development is projected to generate. The bases for these trip projections are the statistical analyses and findings about trip generation found in the Institute of Transportation Engineers (ITE) Manual. Table II.1 of the Washington County Traffic Impact Fee Procedures Manual provides figures for the weekday average trips generated per unit by different Land Uses. For residential uses the units are dwelling or occupancy units. For commercial and industrial uses the units are the square footage of the use or units unique to the use such as lanes, fueling positions, etc.

The TIF rate for each land use category is adjusted each year, effective July 1st, to account for inflation.

For information about the TIF regarding a specific project contact the City's Permits/Projects Coordinator at (503) 718-2426.

For more detailed information on calculating TIF charges and a detailed list of Land Uses and their associated average trip rates see the Washington County Countywide Transportation Development Tax Manual.

***See Appendix for methodology used to calculate the charges.**

The Traffic Impact Fee program is governed by Washington County. All fees and procedures are set by the County.

Fees and Charges Schedule**

EXHIBIT A

Countywide Transportation Development Tax (TDT) - (Example Land Uses and Charges*)

Single Family Detached	\$5,227.00	\$6,665.00 /per unit	7/1/ 2010 2011
Apartment	\$3,352.00	\$4,325.00 /per unit	7/1/ 2010 2011
Residential Condominium/Townhouse	\$3,106.00	\$3,976.00 /per unit	7/1/ 2010 2011
General Office Building	\$5,246.00	\$6,869.00 (per TSFGFA**)	7/1/ 2010 2011
Medical Office Building	\$17,958.00	\$23,370.00 (per TSFGFA**)	7/1/ 2010 2011
Fast Food Restaurant (no drive thru)	\$15,897.00	\$21,133.00 (per TSFGFA**)	7/1/ 2010 2011
Shopping Center	\$6,828.00	\$8,968.00 (per TSFGLA**)	7/1/ 2010 2011

The Countywide Transportation Development Tax (TDT) is a Washington County Tax approved by the voters in November, 2008, that is administered and collected by the City of Tigard. It went into effect on July 1, 2009, replacing the Traffic Impact Fee (TIF) program.

Like TIF, TDT is assessed on new development to help provide funds for the increased capacity transportation improvements needed to accommodate the additional vehicle traffic and demand for transit facilities generated by that development. It provides funds for these capacity improvements to county and city arterials, certain collectors, and certain state and transit facilities as listed in the County's Capital Improvements Project List. The TDT is categorized as an Improvement Fee: revenue must be dedicated to capital improvements that expand capacity and may not be used for maintenance, repair, or other non-capital improvements.

TDTs are assessed on new development on a per-unit basis. For residential uses the units are dwelling units, bedrooms, etc. For commercial and industrial uses the units are the square footage of the use or units unique to the use such as lanes, fueling positions, etc.

The TDT rate for each land use category is adjusted each year, effective July 1st, and the rates for each year from July 1, 2009 through June 30, 2013 were established in Appendix B to Washington County Engrossed Ordinance 691, August 29, 2008. The TDT rates effective 7/1/2010 include a 10% Temporary Discount implemented October 2009 by Washington county. If the Temporary Discount program is terminated the effective rates will revert to the original calculated rates.

For information about the TDT regarding a specific project contact the City's Permits/Projects Coordinator at (503) 718-

* For more detailed information on calculating TDT charges and a detailed list of Land Uses and TDT charges through 6/30/2013 see Appendix B to Washington County Engrossed Ordinance 691, August 29, 2008 and the Washington County Countywide Transportation Development Tax Manual.

** TSFGFA = thousand square feet gross floor area; TSFGLA = thousand square feet gross leasable area.

Fees and Charges Schedule**

EXHIBIT A

Department	Revenue Source	Fee or Charge	Effective Date
PUBLIC WORKS - WATER			
	Water System Development Charge (SDC)*		
	5/8" x 3/4" Meter	\$3,821.00	2/1/2011
		\$4,705.00	2/1/2012
		\$5,590.00	2/1/2013
		\$6,474.00	2/1/2014
	1" Meter	\$10,191.00	2/1/2011
		\$12,551.00	2/1/2012
		\$14,910.00	2/1/2013
		\$17,269.00	2/1/2014
	1 1/2" Meter	\$30,555.00	2/1/2011
		\$37,629.00	2/1/2012
		\$44,703.00	2/1/2013
		\$51,777.00	2/1/2014
	2" Meter	\$49,616.00	2/1/2011
		\$61,103.00	2/1/2012
		\$72,589.00	2/1/2013
		\$84,076.00	2/1/2014

3" Meters and larger diameter

For connections to the water system with meters larger than 2-inches, the City will forecast the demands on an average-day, peak-day, and peak-hour basis.

The number of EDUs associated with the demands will be determined by the following:

$$EDUs = \left(\frac{ADD * 0.400}{226.4} \right) + \left(\frac{(PDD - ADD) * 0.343}{249.1} \right) + \left(\frac{(PHD - PDD) * 0.257}{90.6} \right)$$

***See Appendix for methodology used to calculate the charges.**

Where:

ADD is the projected average-day demand of the new user in gallons per day, and

PDD is the projected peak-day demand of the new user in gallons per day, and

PHD is the projected peak hour demand of the new user in gallons per day, and

The constants used in the above formula are:

0.004 equals the proportion of the City's water facilities allocated to the average-day function

226.4 equals the estimated gallons per day on an average-day basis demanded by an EDU

0.343 equals the proportion of the City's water facilities allocated to the max-day extra-capacity function

249.1 equals the estimated gallons per day on an max-day extra capacity demanded by an EDU

0.257 equals the proportion of the City's water facilities allocated to the max-hour extra capacity function

90.6 equals the estimated gallons per day of max-hour extra-capacity demanded by an EDU

The City may update the values in the formula above as the system changes to recognize the changing costs imposed by large customers
